REPORT OF COUNCIL

To the Members, at the Annual General Meeting, Wednesday, February 27th, 1889.

I. SESSION 1887–88.

PUPILS AND FEES.

The entire number of Pupils during this Session was 1631, being an increase of 20 on that of the preceding Session. Of these 1025 were Students in the College, and 606 Pupils in the School. Of the Students, 339 belonged to the Faculty of Medicine, 86 being new Students: in the Faculties of Arts and Laws and of Science there were 686 Students, 361 being new Students. The largest number of Boys in the School in any one Term was 514.

As compared with the preceding Session these figures show a decrease of 1 Student in the Faculty of Medicine, and a decrease of 19 in the new Students. In the Faculties of Arts and Laws and of Science there was an increase of 8 Students, and a decrease of 4 in the new Students. There was an increase of 11 in the number of Pupils in the School.

The Fees received (exclusive of those for Clinical Instruction) amounted to £28,330 5*s.* 6*d.*, being £1587 16*s.* 0*d.* less than in the Session 1886–87.

The details for the two Sessions compared were as follows:—

	1887–88.			1886–87.		
	£	*s.*	*d.*	£	*s.*	*d.*
Faculty of Medicine	5,047	17	6	6,394	10	0
Faculties of Arts and Laws and of Science.....	10,981	19	0	10,944	13	6
School	12,300	9	0	12,578	18	0
	£28,330	5	6	£29,918	1	6

In addition to the above-stated amounts, the sum of £1582 17*s.* 6*d.* was received for Clinical Instruction in the Hospital, making a total of £6,630 15*s.* 0*d.* paid by Students of the Faculty of Medicine in the Session.

The total payments to Professors, Teachers, and Masters amounted to £19,198 8*s.* 0*d.*

SCHOOL.

The returns which have been laid before the Council show that the discipline of the School remains in a satisfactory state.

The Juliana de Rothschild Prize of £20 for the candidate from the School who should obtain the highest place in the Honours Division at the June Examination for Matriculation in the University of London, was given originally by Mrs. Isaac Cohen in memory of her daughter, the late Baroness Mayer de Rothschild. Since Mrs. Cohen's death her daughter, Miss Lucy Cohen, has offered to continue giving the Prize from year to year. It was not awarded last year.

In 1888 28 pupils passed the Matriculation Examination of the University of London, the largest number ever passed from the School in one year.

The following Table shows the number of boys in the School in each of the three Terms of the last five Sessions:—

	1st Term.	2nd Term.	3rd Term.	Average for the year.
1883–84.....	582	576	566	575
1884–85.....	561	556	555	557
1885–86.....	546	550	541	546
1886–87.....	507	511	519	512
1887–88.....	505	500	514	506

From the Tables submitted it appears that out of a total of 606 boys, 21 were entered in the Black Book last Session, the total number of entries being 26.

Four Scholarships, defraying half the cost of admission to the School for three years, will in July be offered for competition among boys between the ages of twelve and fourteen, whether already in the School or not.

II. GENERAL FINANCES.

The excess of expenditure over receipts for the past Session was £934 1*s.*

There was at the end of the Financial year a debt of £5152 12*s.* 9*d.* on the extension of the North Wing, being a reduction of £1951 1*s.* 6*d.* on the debt of last year.

III. THE CURRENT SESSION.

The entries of Students to February 1st, 1889, have been as follows:—in the Faculty of Medicine, 286, of whom 67 are new Students; in the Faculties of Arts and Laws and of Science, 506, of whom 234 are new Students: in the School, in Michaelmas Term, 513, of whom 98 were new pupils; in the present Term, 508, 49 being new pupils.

The College Fees received to February 1st are £4078 14*s.* 6*d.* in the Faculty of Medicine, and £7378 17*s.* 6*d.* in the Faculties of Arts and Laws and of Science.

PROFESSORSHIPS.

By the resignation of Sir Charles Newton, the Yates Professorship of Archæology became vacant, and Mr. Reginald Stuart Poole, Keeper of Coins in the British Museum, has been appointed to the Chair. Owing to the illness of Prof. Croom Robertson, Grote Professor of Philosophy of Mind and Logic, Mr. James Sully, M.A., was appointed by the Council Interim Professor, and during the present Session he is fulfilling the duties of the Grote Professorship. Professor D. Oliver having resigned the Chair of Botany, which he had held for twenty-eight years, Mr. F. W. Oliver, D.Sc. (Lond.), B.A. (Camb.), who had previously been engaged in the practical teaching of Botany in the College, was appointed Lecturer in that subject for two years. The Council, on the proposal of the Senate, have had the pleasure of conferring on Mr. D. Oliver the title of Emeritus Professor of Botany. Mr. A. H. Keane has resigned the Professorship of Hindustani, and has been succeeded as Lecturer by Mr. J. F. Blumhardt, who was already Lecturer in Bengali and Hindi. Mr. Terrien de Lacouperie (late Professor of Indo-Chinese Philology) has ceased to hold his Professorship under By-Law, xii. 7.

THE PROPOSED ALBERT UNIVERSITY FOR LONDON.

Early in last year a Royal Commission on a University for London was appointed, with the Rt. Hon. the Earl of Selborne as Chairman, and University College and King's College were invited to send representatives to give evidence before the Commissioners. Consequently the President, Sir George Young, Mr. Rotton, Professors Bastian, Goodwin, Henry, and Lankester attended on behalf of this College, and gave evidence in support of the Petition presented to Her Majesty for the foundation of a new University in and for London. The Report of the Royal Commission has not yet been issued.

BUILDING DEBT.

Although the debt is being gradually decreased by the annual application of about £850 from the income of the Goldsmid Fund, the Council desire to remind the Members of the College that a sum of £5,152 is still owing in respect of the North Wing, and that there is consequently a heavy annual charge for interest and repayment of that debt.

The Council have to thank Miss Sharpe for a further contribution of £50 towards the reduction of the debt.

QUAIN BEQUEST.

A draft of the Quain Trust Deed has been submitted by the Trustees for the consideration of the Council, and has been carefully examined and reported on by a Committee, to whom it was referred. The

Report of that Committee, which was adopted by the Council, is now in the hands of the Trustees. It may be expected that the Fund will shortly be made over to the College.

PROFESSOR WILLIAMSON'S PORTRAIT.

A Portrait of Prof. Williamson, subscribed for by his friends, and painted by the Hon. John Collier (an old Student of the College), was, in December last, presented to the College by Sir Henry Roscoe on behalf of the Subscribers. Prof. Williamson himself attended the presentation, and the President accepted the Portrait on behalf of the College. The Council desire to take this opportunity of thanking the donors for their generosity, and to express their satisfaction that the College should possess a worthy portrait of so distinguished a Professor as Dr. Williamson.

HORTON BEQUEST.

A sum of £1600, less duty, left by Mr. E. R. Horton, late Vice-Master of the School, as a Retiring Masters' Fund, has now, by the death of the Testator's mother, reverted to the College. In the words of Mr. Horton, in a letter of February 6, 1880, the money is intended "for the purpose of laying the foundation of a Trust Fund, to be held by the Council of University College, London, for the benefit of retired or invalided Masters of University College School or their families."

JEVONS MEMORIAL.

The sum of £1300 having been subscribed for the purpose of founding a Memorial to the late W. S. Jevons, for some time Professor of Logic and Political Economy at Owens College, Manchester, and afterwards Professor of Political Economy at University College, London, a scheme for establishing the Memorial has been approved and adopted by the Subscribers, by the two Colleges above mentioned, and by University College, Liverpool. The scheme provides that the three Colleges shall receive the interest of the fund in rotation for a period of two years, "upon the condition that the respective Councils of the said Colleges shall devote all moneys they shall so receive to the promotion of Economic Science, either by the institution of lectures or the encouragement of Economic Research." Sir Ughtred Kay-Shuttleworth (Vice-President) represents this College as a Trustee of the Fund.

PHYSICAL LABORATORY.

The urgent need of improved accommodation for the practical teaching of Physics induced the Council in July last to issue a Circular making appeal to friends of the College for funds wherewith to build a Physical Laboratory, and to make further provision for the department of Electrical Technology. It is estimated that about

£6000 will be required for this purpose. Towards this amount there has been already subscribed or definitely promised about £1000.

The Legatees of the late Sir Joseph Whitworth have intimated that if the undertaking is really in hand, and the required fund can be raised within the year 1889, they will be glad to contribute to it £1000.

The Council desire to remind the Members of the College that, although University College was before either of the Universities of Oxford or Cambridge, or any public teaching body in London, in offering systematic practical instruction in Physics, there has never yet been established here a properly equipped Physical Laboratory. The work has been carried on hitherto under make-shift conditions, in rooms not originally intended for the purpose and in many ways ill-adapted for it. In the meantime well-appointed laboratories have been established in several Colleges in and near London, at Oxford and Cambridge, and at each of the modern Colleges that have been founded in various parts of the kingdom. Under these circumstances it is impossible for University College to retain its position among teaching bodies without providing proper means and appliances for the study of Physics. The Council therefore desire to take this opportunity of further urging upon Members of the College the great importance of their being supplied with the funds requisite for this purpose, and they appeal to all who are able either to contribute themselves, or to obtain contributions from others, to aid them to the utmost of their power.

ANATOMICAL DEPARTMENT.

In the Anatomical Department a much-needed improvement has been affected by the reconstruction and extension of the northern portion of the block hitherto known as the small dissecting-room. The new building, which is in two storeys, contains a small theatre for demonstrations, a commodious operative surgery-room, a preparation-room and two work- and store-rooms for the Professor and his Assistants. Additional lavatory accommodation for the Students has also been provided, and the Professor's study has been enlarged. The rooms are well lighted, and are fitted up with all necessary conveniences, including work-tables and sinks, with hot and cold water-supply, gas, and hot-water warming apparatus. There is a lift for the conveyance of heavy objects between the two floors. The alterations as carried out have met with general approval, and constitute a valuable addition to the Medical School.

The expense of this improvement will occasion an addition of about £1300 to the building debt.

ENGINEERING DEPARTMENT.

The Council, acting on the recommendation of the Faculty of Science, have instituted Certificates of Matriculation in Engineering. The Certificate will be awarded to those Students who may be recommended to the Council by the Faculty of Science as having passed the necessary Examination, the regulations of which may be obtained from the Secretary. The Certificates will be recognised by the Council of the Institution of Civil Engineers as rendering the holders eligible for admission as Students of that Institution.

PEEL MEMORIAL FUND.

The income of this Fund in 1888 was expended in the purchase of books, &c., presented to the Chipping Norton Literary Institute, the West Boro' Working Mens' Club and Institute, Maidstone, and the Yorkshire Union of Mechanics' Institutes, Leeds.

LIBRARY.

A Supplement to the Library Catalogue is in the press, and has been set up in type to the end of the letter E. It contains the Barlow Dante, Grant Literary, Quain Law, Fine Art, and Chemical Library Catalogues, as well as other additions acquired during the last ten years.

A list of additions during 1887 has also been printed, and a list for 1888 will shortly be issued.

HOSPITAL.

The question of rebuilding is becoming every year more urgent; the Medical Staff considers that rebuilding will soon be a matter of necessity, and the Hospital Committee therefore again wish to call attention to the Fund for this purpose which was established some years back. The contributions received or promised have now reached a total of £3,234 15*s.* 6*d.* It has been decided not to commence rebuilding operations until £30,000 has been received or promised, and the Hospital Committee earnestly appeal for donations in lump sums or by instalments towards this object. A Special Committee has been appointed to aid in the movement, so that no effort is being spared to carry out the work.

The "Wakley" Convalescent Home was opened for the reception of Patients in May last. Only six beds have as yet been established in order that some idea of the working expenses may be arrived at. It is to be hoped that funds will be forthcoming to a sufficient extent to enable the Hospital Committee to very largely increase the benefits conferred upon Patients in this convalescent work.

No changes in connection with the Medical or Surgical Staff have taken place during the past year, with the exception that Mr. Raymond Johnson, F.R.C.S., has been appointed Surgical Registrar *vice* Mr. Bilton Pollard, F.R.C.S., appointed Assistant-Surgeon.

From the foundation of the Hospital to the year 1881 the accounts were audited by voluntary auditors alone. It was then thought desirable that their audit should be supplemented by that of a public accountant. The Hospital Committee, after thoroughly considering the matter, arrived at the conclusion that the audit of a public accountant is so exhaustive that it is useless to trespass upon the time of

those Subscribers who could be prevailed upon to become auditors. They therefore recommended their discontinuance, and the Council of University College, concurring, have altered the Rules accordingly.

The Hospital Committee regret to report that the number of endowed beds and cots has not been increased during the past year, and they would again point out how this mode of contribution assists in placing the Charity upon a firm basis and tends to diminish the necessity of continued appeals for assistance being made. The interest of £2,000 is considered sufficient for the maintenance of a bed or cot.

The Festival Dinner in aid of the funds, held at the Hotel Metropole, presided over by the Right Hon. Lord Herschell, was most successful, and by this means £2082 was added to the funds.

Return of Services of the Members of Council from February 1, 1888, to January 31, 1889.
